

Say Goodbye to Data Loss, Data Breach, Wire Fraud & Business Email Compromise

-  Privacy & Security
-  Content Ownership
-  Document Tokenization
-  Tamper-Proof
-  Document Tracking
-  Secure Signature
-  Screenshot Block
-  Compliance & Auditing

The standard email paperclip is passive, risky, & final.

91%
of all cyber attacks begin with a phishing email ^[1]

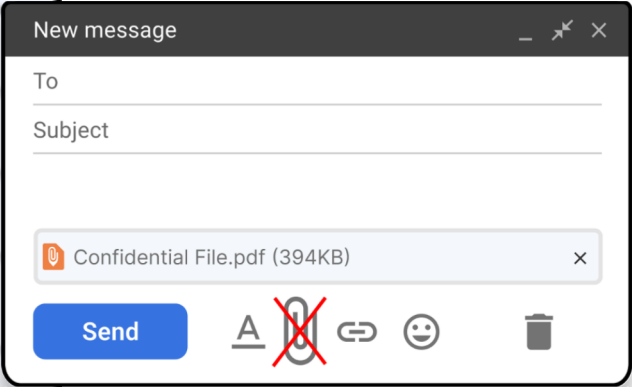

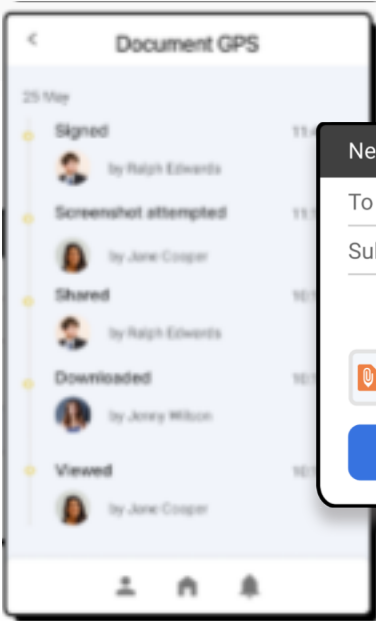

60%
of small to mid-sized business close within 6 months of a breach ^[2]

5.5 Billion
accounts were breached in 2024, 180 accounts every second ^[3]

Track, Control, and Protect Client Data

\$50M to \$100M+ in savings over three years

End-to-end tokenization and encryption without changing email attachment work flow

Control who can download, share, edit, comment, and view your attachments and files.

Track who has downloaded, shared, updated, viewed, screenshotted, or signed your attachments and files in real time.

Recall attachments at anytime

Add watermark to your document and blocked unauthorized screenshots and re-shares after download.

Admin Panel for Enterprise Monitoring

Let your clients upload files to you directly via a secure link

Unlimited E-sign directly in your email, providing unprecedented convenience and security

The only platform for tokenizing your digital files from inside your email account. Protect documents, videos, audio files and more in one click.

Upgrade the Traditional Attachment:
Simple. Secure. Safe.
