

Zero-Downtime Continuity & Operational Resilience

Not recovery after failure. But continuity during failure.

A fundamental departure from traditional backup, disaster recovery and business continuity approaches.

No downtime.
No restoration delay.
No failover dependency.
No waiting.

The Core Continuity Suite: Spare Tire

1

Spare Tire Healthcare

Eliminate EHR downtime. Ensure uninterrupted patient care.
Healthcare Never Stops

2

Spare Tire Business

Eliminate document downtime. Ensure uninterrupted operations.
Business Never Stops

The Protection Suite

3

Document GPS

Persistently protect, control, track and recall documents, files and email attachments even after sharing, using cryptography, file-level protection.

4

CyberVault

Tokenized, tamper-proof, contamination-free backup for cyber & AI resilience.

5

QuantumVault (RoadMap)

Tokenized, tamper-proof, contamination-free backup for quantum resilience.

6

PhishNet

Email Attachment and Document resilience - phishing detection.

The Artificial Intelligence Suite

7

Mithra AI

Secure your AI infrastructure against emerging threats while maintaining complete visibility, tracking and control over AI operations. Mithra AI prevents data hallucination, leakage, detects compromised AI agents, and ensures AI data accuracy across your AI ecosystem for highest-quality decision-making —enabling safe, compliant AI deployment at scale.
